EDUCATION

Princeton University, Princeton, NJ

Expected May 2029

B.S.E. in Electrical & Computer Engineering

Cumulative GPA: 3.82

City Colleges of Chicago, Chicago, IL

Jun 2024 - Jul 2025

Associate's Degree in General Studies, Early College Program

Relevant Coursework: Calculus & Analytic Geometry III; Linear Algebra

Walter Payton College Preparatory High School, Chicago, IL

Jun 2025

High School Diploma

Awards: 1st in State in CyberPatriots XVI Semifinal Round; 2nd in IEEE SSCS Arduino Contest 2024

EXPERIENCE

Digital Creators Intern (Spatial Computing), **Project:VISION, Inc.**, Chicago, IL

Jun 2025 - Jul 2025

- Designed interactive spatial computing experiences using Spline and Reality Composer, creating AR-ready 3D environments and prototypes for deployment on platforms including the Apple Vision Pro.
- Selected to showcase project work at Apple's Everyone Can Code Showcase, demonstrating creativity, technical execution, and user-centered design.

HoagieHelp Developer, **Hoagie Club**

Feb 2026 - Present

- Contribute to development of HoagieHelp, an academic support platform featuring Q&A forums and study group coordination.
- Develop frontend components using Next.js, React, TypeScript, and Tailwind, integrating with Python-based backend services.

Microelectronics Program Participant, **MIT Beaver Works Summer Institute**

Jul 2024 - Aug 2024

- Completed 100-hour microelectronics program covering embedded systems and circuit behavior, involving lectures, labs, and technical assignments.
- Designed and presented a functional capstone prototype in a 50-student national cohort.

ACTIVITIES

Tinker Member, **Princeton University Robotics Club**, Princeton, NJ

Sept 2025 - Present

- Engage in hands-on projects involving firmware, hardware configuration, and debugging.

Co-Founder, **Cantonese Language & Culture Club**, Chicago, IL

Sept 2023 - Jun 2025

- Organized weekly meetings and cultural events to promote Cantonese language learning and community building.

SKILLS & INTERESTS

Language Skills: English (native); Cantonese Chinese (native); Mandarin Chinese (professional proficiency)

Technology Skills: Python; C++; Arduino / ESP32; HTML / CSS / JS; LaTeX; Git; Circuit Fundamentals; PCB design basics; Spline; Reality Composer.

Interests: Spatial Computing; Microelectronics; Robotics; East Asian Culture; Modern Chinese History; 3D Modeling & Design; Astrophysics.
