EDUCATION

Princeton University, Princeton, NJ

Expected May 2029

B.S.E. in Electrical & Computer Engineering

Cumulative GPA: 3.82

City Colleges of Chicago, Chicago, IL

Jun 2024 - Jul 2025

Associate's Degree in General Studies, Early College Program

Relevant Coursework: Calculus & Analytic Geometry III; Linear Algebra

Walter Payton College Preparatory High School, Chicago, IL

Jun 2025

High School Diploma

Awards: 1st in State in CyberPatriots XVI Semifinal Round; 2nd in IEEE SSCS Arduino Contest 2024

EXPERIENCE

HoagieHelp Developer, **Hoagie Club**

Feb 2026 - Present

- Contributing to full-stack development of HoagieHelp, an academic support platform featuring Q&A forums and study group coordination.
- Building frontend components in Next.js, React, TypeScript, and Tailwind, and contributing to backend services in Python.

Digital Creators Intern (Spatial Computing), **Project:VISION, Inc.**, Chicago, IL

Jun 2025 - Jul 2025

- Designed AR-ready 3D environments and spatial computing prototypes using Spline and Reality Composer for deployment on Apple Vision Pro; selected to present work at Apple's Everyone Can Code Showcase.
- Built *Weight of Waste*, an AR experience in Reality Composer that confronts users with the scale of personal plastic waste by flooding their environment with an overwhelming cascade of water bottles.

Microelectronics Program Participant, **MIT Beaver Works Summer Institute**

Jul 2024 - Aug 2024

- Collaborated with a 4-person team to build an AI-powered home security system with 180° pan/tilt, face and fingerprint identification, and automated threat-level notifications; presented to a 50-student national cohort.

ACTIVITIES

Tinker Member, **Princeton University Robotics Club**, Princeton, NJ

Sept 2025 - Present

- Engaging in hands-on projects involving firmware, hardware configuration, and debugging, including vintage iPod refurbishment.

HONORS

Engineering Futures Award, **Chicago Engineers' Foundation**

\$5,000 merit award, 2026

SKILLS & INTERESTS

Language Skills: English (native); Cantonese Chinese (native); Mandarin Chinese (professional proficiency)

Technology Skills: Python; C++; Arduino / ESP32; HTML / CSS / JS; LaTeX; Git; Circuit Fundamentals; PCB design basics; Spline; Reality Composer; Verilog; STM32/STM32CubeIDE.

Interests: Spatial Computing; Microelectronics; Robotics; East Asian Culture; Modern Chinese History; 3D Modeling & Design; Astrophysics.
